## Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Claim 12 is rejected under 35 U.S.C. 102(e) as being anticipated by Dempsey (US Pub. 2004/0108309).

Regarding claim 12, Dempsey (US Pub. 2004/0108309) teach a fixing device for fixing a toner on a sheet (fig.1), comprising: at least one electricity storage device (fig.1, #PS3); a heat generation part generating heat by using electric power supplied from the at least one electricity storage device (fig.1, #L2); a fixing member heating the toner on the sheet to fix the toner on the sheet (fig.1, #34), said fixing member heated by the heat generation part (fig.1, #34 heated by #L2 and #L1); and a power control part (fig.1, #160) configured to control the supply of electric power from at least one of an external power source (fig.1, #PS1, #PS2) and the at least one electricity storage device (Fig.1, #PS3) to the heat generation part (fig.1, #L2 and #L1); wherein the heat generation part comprises a plurality of heaters (fig.1, #L2 and #L1), and at least one of the plurality of heaters is connected to the at least one electricity storage device and the external power source to receive electric power from the at least one electricity storage device

Application/Control Number: 10/808,423 Page 3

Art Unit: 2852

and the external power source (fig.1, #L2 is connected to #PS2 and #PS3 and receives power from both; para.0032).

## Allowable Subject Matter

Claims 5, 6, 10, 11, and 13 are allowed.

The following is an examiner's statement of reasons for allowance:

- Prior art does not disclose or suggest the claimed "wherein the power control part, when a temperature of the fixing member drops..., supplies electric power from not the external power source but the electricity storage device" in combination with the remaining claim elements as set forth in claims 5, 6, 10, and 13.
- Prior art does not disclose or suggest the claimed "second mode in which electric power is supplied from both of the electricity storage device and the external power source" in combination with the remaining claim elements as set forth in claim 11.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

## **Contact Information**

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Laura K. Roth whose telephone number is (571)272-2154. The examiner can normally be reached on Monday-Friday, 7:30 am to 3:30 pm.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, David M. Gray can be reached on (571)272-2119. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
